

STANTECH MOTORS LIMITED

FIRE RESPONSE POLICY STATEMENT

Stantech Motors is committed to the best standards in Fire Response System. Our facility has been equipped with an appropriate fire response system in accordance with guidelines from the Kenya National Fire Brigade Association and relevant safety standards.

- Fire safety equipment (e.g., extinguishers, alarms, and hose reels) are installed at designated points within the facility.
- The fire response system is regularly inspected and periodically tested to ensure proper functionality.
- Maintenance and servicing are carried out by qualified personnel on a quarterly basis
- Staff are trained on fire emergency procedures and the use of firefighting equipment.
